## **ROUTER-3G CONFIGURATION**

# CONNECTING WATER/CONTRONTROLLER 3000 TO <a href="https://www.itc-cloud-manager.com">www.itc-cloud-manager.com</a> THROUGH ROUTER-3G

#### **NOTE**

The MATRIX 3G ROUTER is pre-configured by ITC to:

- IP Address: 172.17.245.1
- User: Itc
- Password: fertic

### **ROUTER-3G CONFIGURATION**

CM003

Change "User Name", "Password" and "APN" according to your SIM CARD operator.
You will find some help here: http://wiki.apnchanger.org
If your SIM card has 'PIN' code,
you should add it in this section

Connect Ethernet cable between GATE and Router-3G.
Turn on the GATE (With UNIT Controller Connected to through RS485 or USB) and wait about 3 minutes

#### NOTE

The GATE is pre-configured by ITC to work directly with MATRIX 3G ROUTER configuration.
