

Reference

21-000	5m
21-003	15m
21-004	25m

It contains a sensor holder 3/4" male, and a buffer (1.4mS) for its calibration.

*For use only with ITC Controllers

TECHNICAL FEATURES

Reading range:	0-10 mS (mmhos/cm)
Media temperature:	-5 a 60°C
Electrodes material:	AISI 304
Body material:	PP
Maximum pressure:	10 Bar
Length of the cable:	5, 15, or 25m

INSTALATION INSTRUCTIONS

Take the protections of the electrodes out, and install the sensor. Minimum distance from the electrodes to the pipe is 1cm.
