

DESCRIPTION

Communication module

01-001	Gate WC3000
01-002	Gate WTRpro
01-003	Gate Sensor CI420MB
01-004	Gate Dostec AC
01-005	Gate TLM
01-006	Gate WTRtec
01-006-IN	Gate WTRtec. Internal

The GATE allows to check, configurate and control control ITC equipment using a PC, smartphones, and tablets with local connection (ethernet and wifi), and remote connection (using the web www.itc-cloud-manager.com)

TECHNICAL FEATURES

Voltage:	85-264Vac, 50/60Hz 12Vdc
Power:	6W
Temperature:	0-45°C
Relative humidity:	0-95% sin condensación
Conectivity:	Ethernet, ADSL, router 3G, USB modem for good connectivity areas without external antenna, Wifi to connect locally with a tabler/ smartphone

Entradas/salidas

Salida 12Vdc:	To power the sensor CL420MB
Comunicación:	RS-485, conection with ITC equipment
